Dear J.D.,

Many, many thanks for all you did so well during your tenure with the Committee. We could never have passed all of the higher education legislation without you. Students and families across the country will benefit immensely from the assistance, and you deserve great credit.

Massachusetts is fortunate that you're continuing your good work at the state level. Warmest wishes in the new job, and in all the years ahead.

With much respect and gratitude,

As ever,

Edward M. Kennedy

my thanks
